

FEATURES & BENEFITS

Eco-Friendly and Sustainable Solution

- Biodegradable: Environmentally friendly and naturally decomposes over time.
- Made from 100% recycled materials: A sustainable and eco-conscious solution.

Enhanced Safety Performance

- Non-flammable: Helps reduce fire hazards and enhances safety across a wide range of applications.

Superior Water Absorption

- Turns water into a gel: Effectively absorbs water to control spills and moisture.
- Exceptional absorbency: Absorbs up to 200 times its own weight in water, making it ideal for large spills.

Easy Handling and Cleanup

- Easy shovel cleanup: Simplifies collection and disposal after use.

Optimized Roofing Applications

- Enhances work on wet modified bitumen: Acts like a sponge by absorbing moisture from the granules, helping prepare the surface for application.
- Compatible with all types of roofing membranes.
