- Aluminum welded overlap seams for clean, solid fusion.
- Aluminum argon arc welded bolts and stem to deck.
- 3/8 in. aluminum T6-6061 bolts; extra set of six (6) stainless steel nuts.
- Code approved CSA-B79.
- Retrofit sizes: 2¾ in., 3¾ in. and 5¾ in.

Millenium Quality

Millenium retrofit drains are manufactured under rigorous quality control procedures using premium-grade aluminum and precision welding techniques. Every component is engineered to provide exceptional corrosion resistance, long-term durability, and dependable performance for commercial, institutional, and industrial roofing applications.

Customer testimonial
“I have been involved in the roofing industry for the past 27 years and these new Millenium brand aluminum drain and seal combos are one of the highest quality I’ve seen and by far the best value of any on the market.”
Manuel Bandeira — Viana Roofing and Sheet Metal Limited
