MILLENIUM DRAIN SEAL

PRODUCT INFORMATION

Product Overview

The Millenium Drain Seal is designed to create a secure watertight connection between roof drain stems and existing plumbing drains using a durable nylon body, EPDM rubber expansion seal and stainless-steel hardware.

Features

- Durable nylon and EPDM construction
- Expanded by tightening internal stainless steel screws
- Available in 3 in., 4 in., 5 in. and 6 in. sizes
- Ideal for Millenium Retrofit Copper Drains
- High quality materials and precision tolerances
- Easy installation and watertight connection
- Three independent stainless steel bolts prevent spinning
- Hardened brass base
- 1¾ in. to 2 in. coupling with stainless steel MJ clamps

Product Benefits

Reliable sealing, corrosion resistance, long service life and simple installation.

Applications

Commercial, institutional and industrial roofing retrofit projects.
