SCREEN WALLS

ARCHITECTURAL AND ACOUSTIC

SYSTÈMES ET COMPOSANTES | ENVELOPPE DU BÂTIMENT

MILLENium

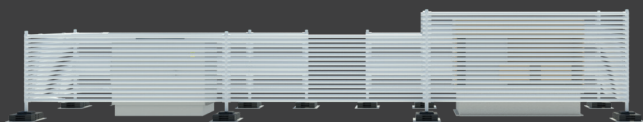

BUILDING ENVELOPE SYSTEMS AND COMPONENTS

FREESTANDING ARCHITECTURAL SCREEN WALL

In many cities, municipal regulations requires that mechanical equipments on buildings roofs are to be hidden by architectural screen walls that harmonize with building's architecture. Screen walls are also used to help reducing noise transmissions in the neighborhood. In which case Millenium's acoustic screen walls systems are the best solution for your projects.

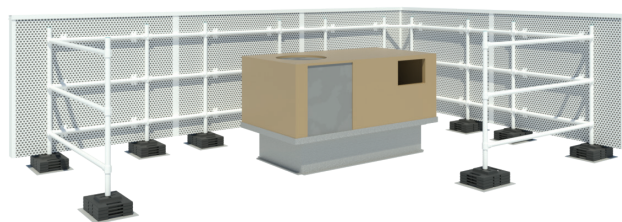

ADVANTAGES

- ⊕ Complete modular system according to your needs
- ⊕ Counterweight bases take up little room on the roof
- ⊕ Allows for installation in restricted areas
- ⊕ Non-penetrating system, no interventions required to waterproof the roof penetrations to its base
- ⊕ Easy to install on all types of flat and low-sloped roofs

FREESTANDING ACOUSTIC SCREEN WALLS

With their unique and innovative design, the acoustic screen walls manufactured by Millenium are a permanent and effective solution to reduce undesired noise from mechanical equipment on the roof.

Each configuration and installation on a roof is validated and approved by an engineer before the final installation.

- ⊕ Exterior colors finishes that matches the architecture of your buildings
- ⊕ Lightweight system made of aluminium components and tubing
- ⊕ Modular design that fits to all types of equipment and roof patterns
- ⊕ Pre-engineered system that are tailor made according to your needs
- ⊕ Easy set up on all types of flat and low-sloped roofs

ENGINEERED & CERTIFIED SYSTEMS

Our self-supporting screen wall system stands out for its great versatility. Custom set-up and patterns are possible according to your needs. The installation can be approved by a certified engineer if deemed necessary.

FEATURES

- ⊕ L-shaped screen walls
- ⊕ U-shaped screen walls
- ⊕ Complete screens around roof-mounted equipment
- ⊕ Screens / fences for more privacy on terraces
- ⊕ Durable and robust, no maintenance required
- ⊕ White, natural aluminum or painted according to your preferred colour range
