

FLOW CONTROL

Features

- Millenium Flow Controls are used to control roof water drainage, if necessary, when storm water flow rates are restricted by municipal regulation
- Millenium Flow Controls are made of .07" heavy duty spun aluminum
- Drainage flutes are located on both sides and a 4" diameter top opening when head of water exceeds 4.41" flow control height
- Side drainage flutes designed to restrict water flow and comply to municipal regulations
- Simple and easy to install
- Fits all styles and sizes of Millenium Copper and Aluminum drains

Millenium Flow Control drain insert will perform as a drain restrictor with the following performance:

Fits all sizes of Millenium copper and aluminum drains (not economy drains)

Under a 4-in. head of water.....	40 GPM
Under a 3-in. head of water.....	30 GPM
Under a 2-in. head of water.....	20 GPM
Under a 1-in. head of water.....	10 GPM
